

## **RoHS Certification of Compliance**

### **Restriction of use of certain Hazardous Substance (RoHS)**

EC directive 2002/95/EC (the RoHS Directive) restricts the use of the hazardous substances listed below in electrical and electronic equipment.

Based on information provided by our suppliers [pcwinner.com.tw](http://pcwinner.com.tw) designates the product listed below as RoHS compliant for orders placed on or after the date of this certificate.

RoHS compliant means that:

- Our supplier has confirmed the compliances status of the relevant products to us.
- We apply rigorous and ongoing processes to confirm and document this.
- We have introduced new part numbers for all new compliant products to identify and segregate compliant stock through our distribution network and our customers' stock management and purchasing systems.

This provides you with the assurance you need visit [www.pcwinner.com.tw](http://www.pcwinner.com.tw) for more details.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4 (1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

For these purpose, the maximum concentration values of the restricted substances by weight in homogenous materials are:

Lead 0.1%

Mercury 0.1%

Hexavalent Chromium 0.1%

Polybrominated Biphenls 0.1%

Polybrominated Diphenyl Ethers 0.1%

Cadmium 0.01%

PC WINNER takes all reasonable steps to confirm suppliers' statements regarding the absences of the restricted substances and maintains a full audit trail of relevant documentation to support this.
